

WE ARE HERE.

This is our opportunity to help
the Central Region community

Learn, Earn and Be Healthy.

Granite United Way

A gift to Granite United Way will respond to needs across the Central Region and ensure access to important programs and services our neighbors rely on.

You have known Granite United Way as a trusted partner helping people Learn, Earn and Be Healthy across New Hampshire and Windsor County, Vermont. By working together, we create opportunities to address our community's most critical needs.

We are here to answer the call, 24 hours a day, 7 days a week at our 211 NH information and referral call center.

We are here to help our youth advance their leadership and literacy skills that will be the foundation for lifelong success.

We are here to provide supports to individuals and families who are striving to build financial stability.

Delivering Impact

It is incredible what we can do together.

Every donor dollar in the Central Region delivers on Granite United Way's promise to leverage those investments in the most efficient ways that will provide a lasting impact on our community. These are just a few of the ways we've been working together to help our neighbors Learn, Earn and Be Healthy.

It Takes a Village

Tri County CAP Head Start reopened their preschool this summer at Whole Village Family Resource Center for a special five-week session for 8 students entering school this fall. This rich environment focused on the language and organizational skills required for kindergarten readiness. Children enjoyed a full schedule of activities; they created their own books, presented them to their peers, and spent lots of time outdoors on the beautiful Whole Village playground. The program followed all safety guidelines of the CDC, the federal Office of Head Start and the State of New Hampshire. All students were provided a nutritious breakfast and lunch each day.

Building Resilience in the Community

Granite United Way's Carroll County Coalition for Public Health (C3PH) has been bringing community members together to learn and grow through a series of Facebook live sessions focusing on Adverse Childhood Experiences. The sessions highlight ways that the community can work together to build resilience, with nearly 10,000 views of its first five events.

Connecting in Crisis

Granite United Way's COVID-19 Relief Fund has helped thousands of people across our state to meet their basic needs during the pandemic. In the Central Region, Lakes Region Community Services connected with dozens of local non-profits to help clients who needed immediate relief to address challenges presented by the pandemic. One employee at a local non-profit noted "I have received such gratitude from anyone who has received support from this fund. One client used funds to buy food while they waited for a new ID. With their new ID, they were able to apply for food stamps. COVID-19 has impacted many people in many different ways, but when we come together as a community, we can make a difference."
