

Granite United Way EVOLUTION

Granite United Way continues to evolve to meet the needs of our community and advance the common good. We’re building on the foundation that generations before us have set forth.

With our Strategic Plan in place and targeted investments in the areas of Education, Income and Health, there is no limit to the impact we can make by working together.

Join us in moving our community **ONWARD.**

IT TAKES ALL OF US TO LIVE UNITED

“Pat and I have long supported the critically important work of the United Way. United Way takes care of all of our annual charitable giving; we are able to distribute our gift to United Way and multiple local programs we care about. At year-end our tax preparation is a breeze!”

Norm Turcotte
*Alexis de Tocqueville Society Member
Loyal Contributor*

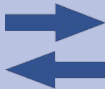

“I am passionate about helping my community, especially in the areas of Education, Income and Health. I am excited to share this passion with my daughter, Logan. Both of us volunteer our time on Community Review Teams to ensure United Way funds are being leveraged in the most efficient and effective way possible.”

Joe Kenney
*Community Impact Committee
Volunteer & Loyal Contributor*

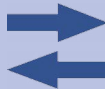

“The best way to advance the common good in our community is with the strategic promise to stay local, lead change, and meet stakeholders where they are in an ever changing environment. I know that working together is the only way to solve complex social issues in our community.”

Marti Ilg
*Executive Director
Lakes Region Child Care Services
Loyal Contributor*

Community Chest
The foundation of United Way serving as a conduit for charities addressing social issues

Community Impact
Using outcomes measurement to align funding focus on Education, Income & Health

Collective Impact
Convening agencies and communities to improve complex social conditions
