

UNITED is the way FORWARD

WE HELP PEOPLE IN THE NORTHERN REGION

It's True: We are Better Together

Many of our neighbors throughout the Northern Region face challenges that cannot be met by a single organization. That's where Granite United Way has been able to step in and partner with other community-based organizations to share resources.

Working Better Together was formed organically - By talking, sharing, and connecting, nonprofits are able to forge partnerships allowing everybody's "needle" to move. Using this premise, Working Better Together was formed.

Not only has Working Better Together allowed collaborations to occur, but vital information is shared between agencies. Many times, a nonprofit will announce what they are doing and others in the community are oblivious.

At one meeting of the group, many found out how the Granite United Way and AHEAD have given out more than \$30,000 in grocery gift cards in response to the COVID-19 pandemic. Attendees were inspired at the sheer number and support.

Northern New Hampshire's region has been working like this for many years; recognizing the importance of working together and how it strengthens communities.

"In addition to Working Better Together, the Androscoggin Valley Community Providers meeting and Northern Carrol County Provider Network are keeping agencies connected in the Northern Regions of NH." said Laura Boucher, Northern Region Manager.
